SAFE

RELIABLE

EFFICIENT

TRUSTED

MOVING
BUSINESS
BUILDING
TRUST.

Built around service, scale and trust.

Giridih Roadways has evolved from a single-vehicle transport operation into a market-sourced network serving industrial and trade customers across eastern India and the North East.

2012

Industry entry

2014

Formal establishment

100+

Active truck network

100%

Bootstrapped enterprise

“The operating model is designed to stay flexible when routes, cargo volumes and customer requirements change.”

Three principles shape every movement.

The company profile centres the service promise on dependable execution, responsible handling and long-term partnership.

01

RELIABILITY

Safe, efficient and timely

Dependable road-freight service with smooth operations and safe delivery.

02

RESPONSIBILITY

Care in every mile

Professional handling of every consignment, with attention to responsibility and service quality.

03

PARTNERSHIP

Long-term relationships

Customer satisfaction is treated as the foundation for lasting business relationships.

Where the business is headed.

OUR MISSION

Deliver safe, reliable and timely transportation, supported by responsive customer service and long-term business relationships across eastern India.

01

OUR VISION

Grow as a trusted and recognized name in transportation and logistics, known for reliability, professionalism and customer satisfaction.

02

From one truck to a regional network.

Founder Mr. Mohammad Parwez Alam Ansari’s journey reflects a shift from asset ownership toward an agile, relationship-led transport network.

From asset-heavy to network-led.

The 2018 strategic pivot changed the way capacity is created: from a fixed owned fleet to a dynamic market-sourced network.

PRE-2018 | OWNED FLEET

FOCUS	Heavy capital investment in a static owned fleet.
VULNERABILITY	Exposure to localized operational setbacks and asset loss.
CAPACITY	Rigid and fixed transport ceiling.

TODAY | MARKET-SOURCED MODEL

FOCUS	Source trucks dynamically against route and operational needs.
ADVANTAGE	Built on strong market relationships and partner networks.
CAPACITY	Scalable, dynamic and resilient across routes.

Flexibility at operating scale.

100+

ACTIVE TRUCK
NETWORK

A market-sourced capacity model
supports changing route and cargo
requirements.

RESILIENCE

Capacity can flex with changing operational conditions.

ADAPTABILITY

Route and cargo requirements can be matched to available market capacity.

TRUST

The model is reinforced by long-term customer and market relationships.

An expanding eastern India footprint.

The profile documents customer and trade activity across Jharkhand, West Bengal, Bihar, Meghalaya, Assam and other North East markets.

NETWORK CHARACTER: Industrial freight | Steel & cement | Hardware & retail | Regional distribution

Jharkhand & West Bengal
